

Care Report
May 2020

We are in very different times right now, the situation in Honduras is very different at this time. They are not only fighting the Corona Virus but they are also fighting starvation and malnutrition at alarming rate due to the virus. Our Care affiliates in Honduras have sent us a proposal in essence to redirect some of the funding from The Healthy Gardens Project to help provide assistance now, we would still be providing food and nutrition but at this time in a different manner. I personally feel this is the right thing to do.

Respectfully submitted
