

MD19 CARE REPORT

Report by: PDG Erma Kemp, Chairperson
Date sent: 10/10/2018

Council Chairperson John and Council

As I put my garden to sleep for another year, I am reminded how fortunate we are in our countries, to be able to raise enough healthy nutritional vegetables to share and even take to the fair. I can't imagine what it must be like to see my children or grandchildren go hungry.

Do any of us know what real hunger is? I want to compliment the Bellingham Central Lions on their implementing a gardening program right here in our own area. This is what our CARE Project is like—only in Honduras. “School gardens for Healthy Nutrition “

We're hoping to raise \$40,000 for each year of this 2 year project. Additional information—Page 10 in your Roster!

Let's all buy into this “our” Care Project

We Can ---Because **We “CARE’**
