

## Environment Report

Dear Council,

This year we will be splitting the spring conventions between three persons for our environmental visits. This Lions year the Environmental chairs will be splitting up the Spring Conventions (Conferences) with three people. We will decide at a later date who will go where. Last year Nancy and I split the nine districts and it was a large undertaking for two people to do the job. So having another person will give us a little breathing room.

It would be appreciated if we could have a table at each convention at no cost for our displays. Later in the year we will decide who will be visiting your area. We will have a table at the MD Convention please visit and support our efforts.

Thank you.

PC Enoch Rowland  
Environmental Chairperson
